High Genetic Limousin Breeding Heifer Sale

34 breeding heifers by 25 AI sires

Saturday 6th September 2025

Roscrea Mart & On-line at Martbids.ie

Viewing from 12.00 – Sale 1.30 pm

Enquiries to: Pat Sheahan— 087 2500311

Catalogues available at www.irishlimousin.com

Looking for an elite high-genetic Limousin Breeding heifer?

This sale provides you with an excellent opportunity to purchase an **elite, high-genetic breeding Limousin heifer**.

Northern Ireland purchasers: Transport arrangements to Northern Ireland will be organised - at the cost of the purchaser. If the purchaser is not at the mart, the seller will be required to take their heifer(s) home and drop off at an export location the following week. For details, please contact Pat (087 2500311).

Mainland UK purchasers: For mainland UK purchasers, the animal will need to return to the seller's farm for a period of at least 40 days prior to being exported.

Herd Health is critical for all breeder and is at the forefront for this sale. Dams of all heifers and heifers over 24 months are tested free of Johnes. Many of the heifers are from herds participating in a herd health program.

From an index perspective, this catalogue is one of the best group of heifers offered for sale for many years. If you are a new breeder, the heifers offers the opportunity to purchase your foundation female. There are heifers suitable for all enterprises including the show ring, breeding the best pedigrees or commercials.

25 different AI sires are represented in the catalogue, providing a huge genetic selection. Many of these sires are in the **top 1%** for indexes such as **Replacement, Terminal, Daughter's Milk and Gestation** with the majority in the **top 10%** for different traits.

From a **Replacement perspective** many heifers are at the upper end of the scale with **2** in the **top 1%** and **2** in the **top 5%**.

From a **Terminal perspective**, again many heifers are at the upper end of the scale with **7** in the **top 5%** and a **further 3** in the **top 10%**.

The same quality is visible across other indexes:

- **21** of the heifers are **below the breed average** for "**Calving Ease**"
- **28** are **above the breed average** for "**Daughter Milk**"

There will be heifers available for everyone, across **all price ranges**, that suit all pockets.

SALE ARRANGEMENTS

Stewards: Pat Sheahan and Kieran Noonan

Auctioneer: George Candler

Viewing from 12.00pm on Saturday September 6th

Sale at 1.30pm

Stock to arrive the morning of the sale before 10.00am.

A minimum bid of €2,000 applies to this sale.

All animals must be **trained to a halter**. Adequate halter must be left with the sold animal.

Any cattle sold outside the ring must be put through the books. This rule will be strictly enforced. Any seller not adhering to this rule will be prohibited from entering the next 2 club sales.

Vendors must present the steward with their Blue Card, Pedigree Certificate & Johnes declaration. Veterinary proof of a **negative Johnes test** from the animal itself if aged 24 months or over on sale day or from the dam if the heifer is under 24 months, must be supplied to the stewards on sale day. Animals without these documents will not be allowed for sale.

No iron halters allowed. Please bring a white coat for the sale.

Straw is provided by Roscrea mart.

Transport to Northern Ireland or mainland UK will be arranged by the buyer and seller.

The first three unsold lots of heifers may be re run at the end of the sale.

Use of narcotics or pain suppressants is strictly forbidden.

Note: The onus is on the herd owner to ensure all information is up to date in advance of sale day.

Minimum Weight as outlined on entry forms apply.

Disclaimer: We have taken every precaution to ensure that all the information provided is correct. We have relied on information provided by ICBF and Vendors. We accept no liability for any errors or omissions, nor for the consequences of any actions taken on the basis of the information included in this sales catalogue or provided during the sale. In the event of any issues with an animal sold at this sale the purchaser should contact the vendor.

Female Fertility Guarantee

Any cow or heifer realising that is stated by the vendor as having been served or artificially inseminated not less than 12 weeks before the date of the sale shall be guaranteed in calf to the service date or date of artificial insemination and to the bull stated, unless any alteration to the service particulars is announced from the rostrum or by the vendor at the time the animal is sold. The term "running with the Bull" implies no guarantee of pregnancy unless specifically stated by the vendor at the time of sale, neither shall the provision by the vendor of a certificate of positive pregnancy diagnosis imply any such guarantee this being merely an expression of opinion.

Every heifer sold as unserved shall be so guaranteed and all such heifers (unless sold suckling their dams) shall carry a guarantee that they are capable of breeding. Calves sold suckling their dams are given to the purchaser free and no guarantees apply unless specifically stated by the vendor at the time of sale.

No claim under these Rules will be effective unless made to the Auctioneers or to the vendor within the following time limits, as applicable, viz:

- (a) In the case of a cow or heifer sold as being in calf which proved NOT to be in calf, within 49 days of the date of sale.
- (b) In the case of a cow or heifer which, although in calf, does not calve to the stated service or insemination date, within TWO CALENDAR MONTHS of the date that the animal should have calved according to the particulars of service or insemination stated in the catalogue of sale, in all such cases, no claim will be admissible unless there is an interval of more than four weeks between the presumed due date (according to the stated particulars of service or insemination) and the actual calving date.
- (c) Where a cow or heifer calves at a later date than the due date the onus of proving the identity of the service bull shall be upon the vendor.
- (d) Where a heifer is sold as unserved and which subsequently proves to have been in calf at the time, within SIX CALENDAR MONTHS of the date of sale.
- (e) In the case of a maiden heifer which proves incapable of breeding because of malformation or abnormality of the genital system, not before the animal attains the age of TWENTY SEVEN MONTHS and no claim under this rule be admissible after the animal has attained the age of THIRTY SIX MONTHS.

NOTE: Any female (cow or heifer) that has been flushed for embryo transplant will be EXCLUDED from the terms of this guarantee but individual vendors of such animals shall have the option of giving their personal guarantee to be announced at the time of sale. No claims will be admitted under these rules where it can be proved that a cow or heifer is carrying a mummified calf, or has aborted or re-absorbed a foetus and no guarantee is given or implied that any cow or heifer will carry a calf full term. All claims must be submitted to the vendor and the Secretary of the Society.

Ireland's Leading BEEF & DAIRY SEMEN SUPPLIER

Sexed Semen Available

DRUMLINE S1185

LM9577

- Number 1 Limousin sire Available in Ireland on Terminal Index at €183!
- Number 1 Limousin sire for Docility!
- Massive Replacement Index of €177!
- Just 4.1% calving difficulty on beef cows at 96% reliability
- 7.4% calving difficulty on beef heifers at 87% reliability
- Top 1% of the breed for gestation length!

BROOKLANDS MARCO LM5443

- Brooklands Marco is the leading proven all rounder Limousin sire in Ireland!
- Marco boasts a 5 index across the board
- €143 Replacement Index
- €163 Terminal Index
- €162 Dairy Beef Index
- And he's only 4.0% calving difficulty on beef cows

Sexed Semen Available

Sexed Semen Available

BRONTEMOOR SALERING LM9655

- Just 2.0% calving difficulty on beef cows at 88% reliability!
- Boasting exceptional indices:
- Terminal Index of €154
- Replacement Index of €126
- Salering is an incredible outcross sire for Irish farmers & comes from Brontemoor's most consistent cow family

DID YOU KNOW?

A study conducted by **the Greenbreed Research Project** at ICBF revealed that **Limousin genetics** have :

- the **lowest methane emissions** and **environmental footprint**.
- the **highest feed utilisation** and **beef carcass conversion efficiency**.
- Producing **up to 30% less daily methane emissions** relative to other high emissions beef breeds.

***LIMOUSIN THE LEAN, GREEN, CARBON
EFFICIENT BREED***
