

IML Healthplus+ ICBF Data Permissions

For Herds wishing to be accredited as BVD free within the IML Healthplus scheme, IML will require access to your BVD testing results over a number of years. To grant access to IML to this testing please follow the instructions below. This data permission also allows IML access to Herd Profiles in order to assess the disease testing status of other diseases should it be required. Permission to access Herd Data can be granted electronically as shown below. Alternatively if you do not have online access please request a postal form from the IML office on [042-9675353](tel:042-9675353)

1 Log on to your ICBF account at www.icbf.com by entering your username and password.

2 On your herd homepage click on Admin and then select Change Data Permissions as shown below:

3 Under Edit Authorisations scroll down to “Veterinary Service” and click to drop down options.

Edit Authorisations

- AI Services ✓
- Agricultural Consultant ✓
